FEATURES + BENEFITS

- 1 Rigid Interwoven Centre Rib with Straight Line Siping:** Offers exceptional steering response and dry handling.
- 2 High Void Angled Grooves:** Channels water away from the tire efficiently for added wet traction performance and hydroplaning resistance.
- 3 Studdable:** Allows optional aftermarket stud application for added ice traction.
- 4 Strategically Angled Tread Blocks with Serrated Winter Sipes:** Provide excellent traction and braking capability in all directions on snow and ice.
- 5 Optimized Contour Tire Design:** Provides balanced pressure distribution across a larger surface area for extended tread life.

3-Peak Mountain Snowflake Certification:
Certified for use in severe winter conditions.

Studded Options:

Factory studded articles are available in select sizes with Tri-Star Studs (CD).
