FEATURES + BENEFITS

Monitor Technology: Replacement tire monitor (RTM®) and visual alignment indicators (VAI®) alert drivers of misalignment and treadwear conditions.

Peak Anti-Slip Sipe Design Technology (PASD®): Increases the number of biting edges for traction on slippery roads.

Low Surface Abrasion Technology (LSA®): Construction elements that reduces tread distortion as the tire rolls, resulting in less surface abrasion promoting even treadwear and extended treadlife.

Acoustic Modulation Sound Technology (AMST®): Suppresses tire road noise for a quiet ride.

Twin Cushion Silica Tread Compound: High and low density tread delivers extraordinary ride comfort.

Reactive Contour Technology: Reacts to different road conditions to maintain efficient road contact for optimum traction.
